

See Clearly

What if you could see everything?

We are here to tell you that you can. The **ClearView™ solution** is the complete wetstock management package, designed to help fuel retailers lower operational costs and improve profit margins, while also maintaining compliance regulations. Using advanced reconciliation techniques, the ClearView solution can quickly detect instances of fuel loss (including theft), poorly calibrated meters and short deliveries, giving you increased control over your inventory and peace of mind.

Subscribe now and reap the rewards

Increase
business efficiency

Decrease
waste

Reduce
overhead

Improve
profitability

The ClearView solution suits all fuel retailers, from small independents right through to multi-national oil companies, who wish for precise fuel monitoring that can improve their business profitability. The system gives you an unprecedented level of visibility and understanding, from the delivery right through to the customer's vehicle.

The ClearView solution can identify issues of:

- Leaks
- Fraud
- Delivery Shortages
- Theft
- Water Ingress
- Meter Error

ClearView solution analysts are available to provide expert support and advice if any issues arise on-site, offering guidance to make sure that a resolution is reached before the issue becomes a problem.

The ClearView Solution Key Features

Wetstock Performance and Focus Management

The ClearView solution offers a range of performance reports, including reconciliation, site performance (by network, site, grade and tank) and delivery history.

Automatic Tank Gauge (ATG) Alarm Management Service

The ClearView solution monitors a vast range of gauge alarms, including water, overfill, sensors, low inventory, extreme loss and ATG faults.

Statistical Inventory Reconciliation (SIR) Monitoring

A core part of the ClearView solution is our SIR analysis. We deliver both weekly and monthly SIR reports, historical SIR status reports and offer follow-up on 'SIR Fail/Inconclusive' investigations.

Delivery Reconciliation Service

Our delivery reconciliation service helps you to effectively manage your logistics. You can run delivery matching reports and are instantly notified to unmatched and missing deliveries. The service also offers delivered temperature analysis.

Introducing the ClearView™ solution dashboard

The ClearView solution dashboard is the complete, real-time online fuel monitoring platform, which gives you all of the information you need to manage your inventory and facilities from any web-enabled device. The intelligent software gives you the power to detect shrink, quickly spot fraud or theft, determine meter error and find leaks faster than ever before.

Introducing ClearView™ solution dashboard powered by Dover Fueling Solutions

Complete insight
into your inventory &
fueling assets.

Accurate information
delivered instantly to
your fingertips

Intelligent data
improves understanding
of your inventory

Cost-effective solution
saves you time & improves
profit margin

With the ClearView solution, you can see everything you need to reduce costs, drive down losses, gain peace of mind, maximize return on investment and grow your business.

The management tools you need...

The ClearView solution dashboard is completely customizable and can be populated with different elements, depending on the users' roles and responsibilities.

■ Sudden Loss

React to potential tank leaks and theft and ensure that any fuel losses are minimized

■ Nozzle Flow Rate

Be alerted to user-defined flow rates that could affect the customer experience

■ Nozzle Utilization

Track which nozzles are out of action and view their daily usage

■ Water

Monitor water alarms and react to sudden water ingress

■ Connectivity

Be notified when site equipment loses connectivity with the ClearView solution

■ Low Inventory

Observe tank inventory levels and order fuel in good time

■ Reports

Generate site or network-specific reports and easily download copies for your records

So, what will it do for me?

- Identify weak points in your business
- Aid predictive maintenance
- Help to prevent dispenser downtime
- Lower operational costs
- Improve logistics
- Centralize business management

Visibility is Power
