business efficiency

The ClearView solution Interactive Dispatch Reporting Service is ideal for convenience store network operators. Created with the dispatcher in mind, the service incorporates many safeguards to ensure accurate and timely dispatches across your entire operation. Once signed up to the service, the ClearView solution will provide you with expert training, support and advice to provide you with a real-time solution for all of your dispatching demands.

So, what's included?

- Recommended dispatching per location
- Deliveries scheduled in order of importance, based on run-out probability, by day and hour
- Split load scheduling ticket creation
- Order integrity verification function
- Expert training, support and advice

Online Logistics Management Portal

The ClearView solution online platform gives you visibility over your logistical operations so that you can easily manage your network inventory remotely.

- Intelligent filtering of data
- User-friendly navigation
- Variable settings for different user roles and responsibilities
- Effortlessly move recommended load data from dispatch to delivery ticket
- Easily call-in orders via the reception desk, using the Commercial Site Screen. Includes non-monitored locations.

Data collection is automated and information can be polled from the majority of automatic tank gauge (ATG) makes and models, point-of-sale (POS) systems and interactive voice response (IVR) resources. For sites without an ATG, the service can provide estimated inventory levels, based on historical site performance.

For optimum functionality, the Interactive Dispatch Reporting Service should be combined with the
