

Fuel Tank Service

What if you could see inside of your fuel tank?

We are here to tell you that you can. The ClearView™ solution **Fuel Tank Service (FTS)** is the most comprehensive, flexible and cost-efficient solution for complete fuel inventory management, giving you visibility over your wetstock, whenever you need it.

Subscribe now and reap the rewards

Avoid
run-outs

View
inventory levels

Access
online reports

Manage
logistical operations

You no longer need to worry about encountering a run-out on a busy day on the forecourt. With the ClearView solution FTS, you can instantly view inventory levels in your underground tanks, allowing you the ability to plan deliveries in plenty of time. Our comprehensive reporting suite gives you the tools to perform detailed analysis on your inventory, and any reports generated are available to download or view at any time via our secure web portal.

So, what's included?

- Daily data collection from automatic tank gauge (ATG)
- Collation of tank inventory data emailed/FTP directly to back office
- Automatic emailing of inventory and alarm reports
- Access to a secure web platform for viewing data
- Over 60 different reports

Optional Dynamic ATG Alarm Monitoring

The ClearView solution Dynamic ATG Alarm Monitoring service is a continuation of the standard tank leak detection system. The system alerts you to a range of alarms that require your attention, so that you can react quickly when needed.

- System accepts & processes ATG alarms, 24/7
- Automated actions available for chosen, immediate alarms*

Optional Compliance Reporting Service

The ClearView solution can monitor the majority ATGs that have compliance programs installed and, as part of our Fuel Tank Service, can send all tank test results to you every week, so that you can attend to any issues promptly.

- Weekly call to site
- Remote polling of tank gauge data
- Web and email-based compliance reports
- Exception reports with advisory corrective action available
